You need the whole thing. Those are the new ones I was asking Lisa if she emailed to you. We received them via email and David passed them to her. I could not recall if she emailed them to you or not. But it doesn't matter now, you have them. You need the entire package which is apparently on the website. The DVD has not arrived yet either. I've put in a request that it be mailed to you overnight when it arrives but no telling what that will be.

Anna, I was able to download these 3 files:

- DOGGR Application Transmittal Letter to US EPA NEW
- Water Board Letter Final Concurrence on the Dollie Sands NEW
- Arroyo AE Response to ALL Comments Final NEW

Is that all we need, Michele?

That is part of our checklist and we can certainly provide input on it.

However, I wanted to note that we haven't been able to access any of the new materials yet. Trying to view/download the PDFs on [http://www.conservation.ca.gov/dog/Pages/Aquifer\\_Exemptions.aspx](http://www.conservation.ca.gov/dog/Pages/Aquifer_Exemptions.aspx) gives an error message saying that the server "may be down or congested."

David/Mike wants an answer before next Thursday's meeting with the state if this would be a substantial or non-substantial exemption, and why. ORC is looking at this as well but we should have input.

We think it may be worth having a call with you guys. We had a few questions back in December that probably necessitate some policy calls by EPA and we agreed to wait until the complete package came in.

This afternoon (other than 2-3 ET) or tomorrow between 11 and 2 ET look free for us.

The documents have not changed since the December ones.. only a few new documents added—comment/response, a letter to Mike Montgomery and a final concurrence from the Water Board.

Thanks, Lisa

Glad to see things are getting rolling. We'll get started and let you know if we expect any issues meeting the February 19 due date (hopefully we got a good start on it in December).

Michele, my address is: 4250 N Fairfax Drive, Suite 601, Arlington, VA 22203.

PS. Molly is coming over to Cadmus on Friday; maybe you can sweet talk her into bringing a disk. ☺

Hi Shari,

Please accept this email as technical direction to review the Arroyo Grande AE for completeness, complete the review checklist and note any missing or outstanding items, and flag any issues for EPA that may limit our approval of the exemption. I will get you a copy of the disk that was submitted to EPA Region 9. Can you email Michele Dermer your mailing address so she can send you a copy? For now, all of the documents have been posted on DOGGR's website above. If possible, can we have this completed by Friday, February 19?

Thanks,

Lisa
